

Just to give you a quick update following the open day last week.

A number of concerns and questions arose during the open day and the business and having considered these we decided to delay the construction of the sewer until autumn of 2017. We have advised the Parish Council of the postponement and a newsletter is being sent to the wider community.

This does not effect the statutory obligation to provide sewerage for B and we would still wish to make a presentation to B residents in the near future. The suggestion has been put forward that the B Cricket Club may be a suitable venue to hold the presentation.

Whilst perhaps not as pressing as before we would still like to hold a meeting at the earliest opportunity in the New Year.

I look forward to hearing from you as regards a venue and suitable dates.
